

# Pumpeller

Hybrid lagoon pump

## Benefits

- ✓ Most aggressive cutting of crust & bedding, will not block.
- ✓ Unique suction action pulls crust into the chopping edges of the propeller-turbine.
- ✓ Much faster mixing that saves fuel and lets you start spreading quicker.
- ✓ No gearbox to service / repair.

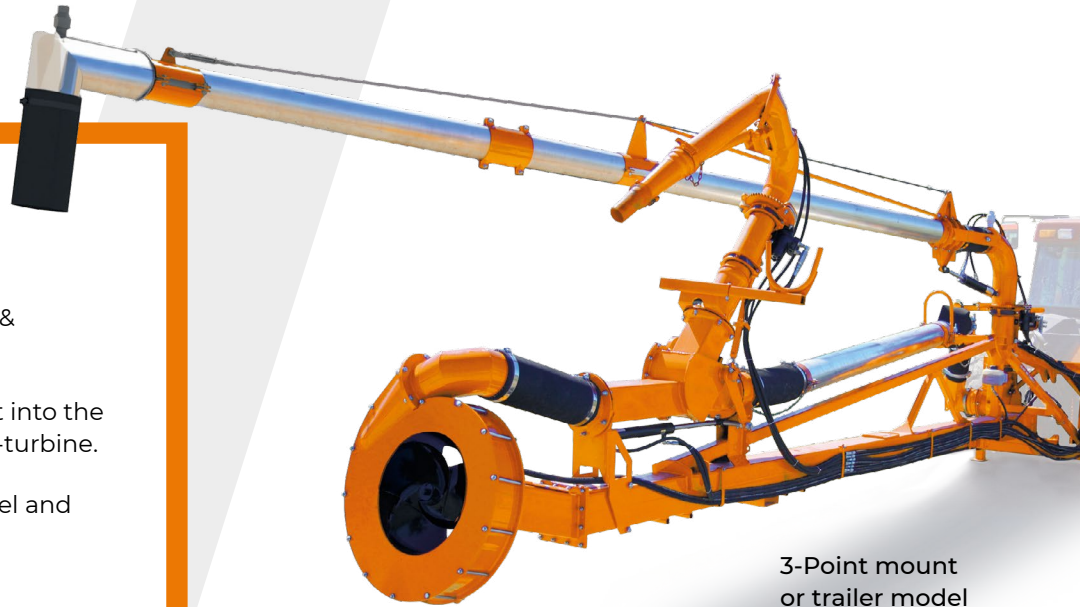

## Features

Giant flapper valve

8" (20 cm) discharge

Massive oilbath bearing chamber

Unique swivel cannon

3-Point mount  
or trailer model

**Combines the  
high-volume mixing  
of a propeller agitator  
with the power and  
reach of a lagoon pump.**

### Easily mixes large lagoons

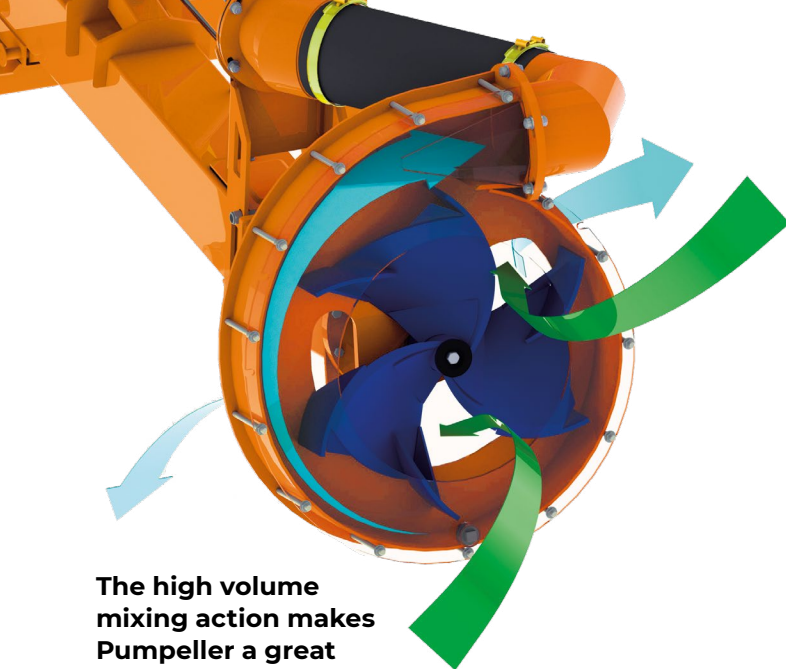

Produces rapid lagoon movement with the combined action of the cannon and the propeller-turbine. The high pressure cannon easily lifts bottom sediments.

### Unmatched chopping performance

The Pumpeller is the best choice for tough pits Recommended for straw, manure solids, wood shavings or sand bedding.

The high volume mixing action makes Pumpeller a great choice in sand.

## Hybrid turbine

The center of the Pumpeller turbine is a propeller that creates a powerful intake suction that pulls in tough solids and obliterates them at up to 50 cuts per second.

The integral impeller blades on the outer edge deliver fast load-out and high cannon pressure.

## Options & accessories

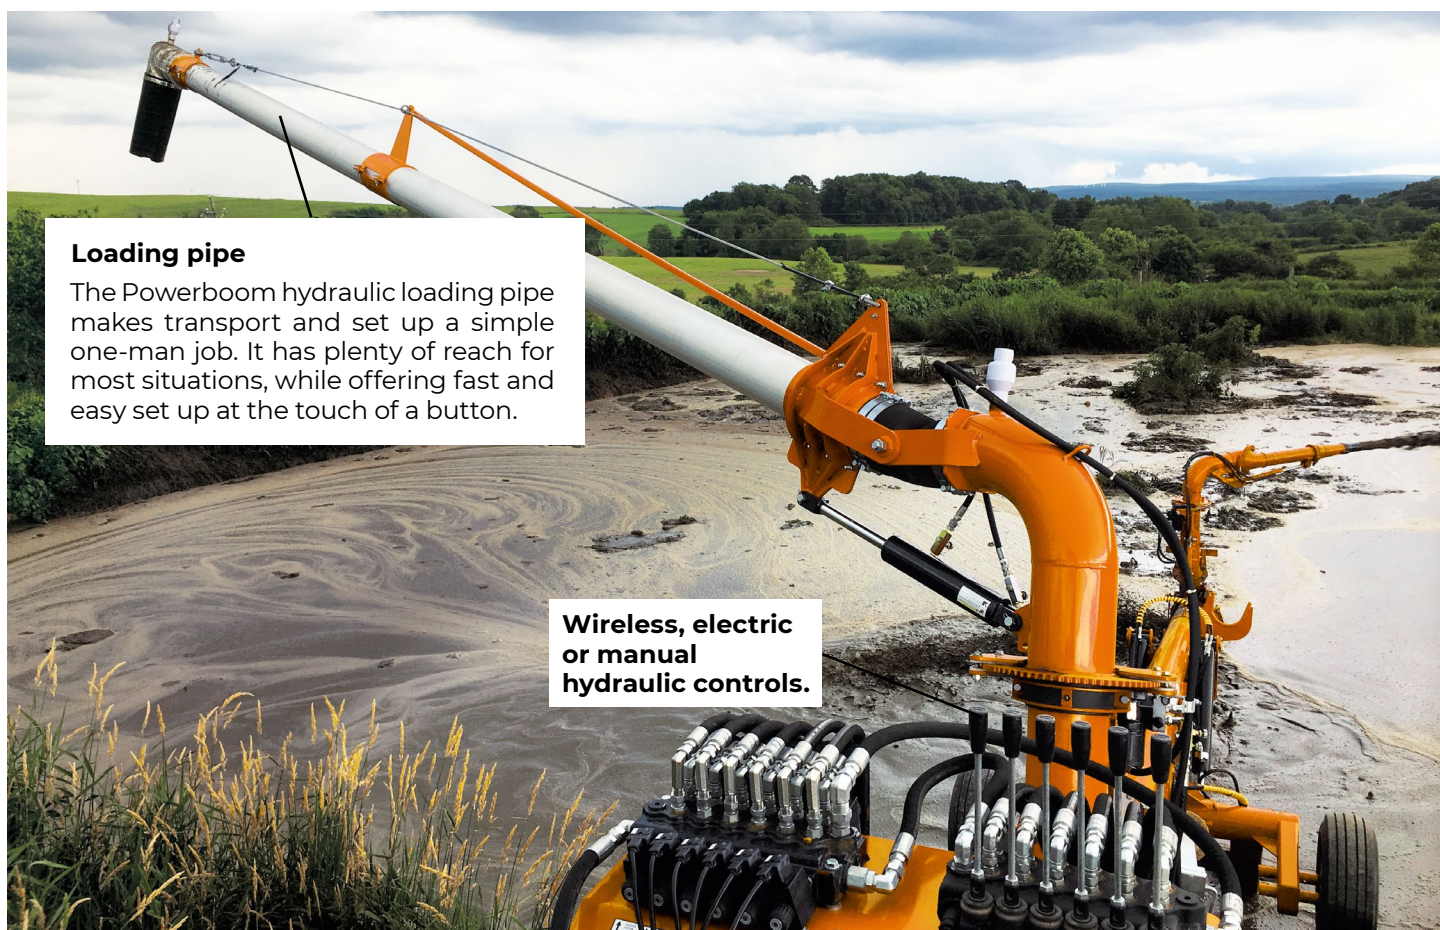

### Trailer wheel kits

- Single wheel
- Dual wheel
- High lift
- Telescopic
- Side-folding

### Discharge kits

- Bipod loading pipe
- Wheel load cart
- Powerboom

### Trailer stabilizers

### Loading pipe

The Powerboom hydraulic loading pipe makes transport and set up a simple one-man job. It has plenty of reach for most situations, while offering fast and easy set up at the touch of a button.

Wireless, electric or manual hydraulic controls.

## Specifications

Model	PTO RPM	Diameter	# Blades	Power
540	540	28" (71 cm)	3	130 HP (97 kw)
1000	1000	20" (51 cm)	3	180 HP (134 kw)
